Experience

Implementation Consultant • PT Indodev Niaga Internet

PT Indodev Niaga Internet is a software development company that operates using the DataOn trademark. I still work at PT Indodev Niaga Internet as Implementation Consultant Staff, my job desk includes adding new features and custom features. Apart from that, I also explain the available modules to clients. The programming language used is Coldfusion as the backend, React JS as the front end, and MariaDB

July 2023 - Present

Web Developer • Loghic Connect

I worked at this company from 2020-2023. While there I worked as a web developer. I often use the programming languages JS, PHP, HTML, CSS, Python.
